

Specifications :-

Model	ORG UF Alkalinator
Purification Capacity	25 Liter/Hour
Operating Voltage	240 Volt Ac, 50 Hz
Duty Cycle	5 Liter/Day (Max)
System Wattage	50 Watts
Storage Capacity	8 Liter
Inlet Water Pressure	0.3 (min) - 2.2 (max) kg/cm ²
Hollow Fiber UF Membrane	0.1 Micron
Spiral Wound UF Membrane	0.01 Micron
Filter Cartridges	Inline Sediment and Inline Carbon
Alkaline Cartridge	Antioxidant-Alkaline Mineral Ball
Dispensing Pump	24 V DC/300 GPD
Digital Dispensing Switch	2 NOS (Purified & Alkaline)
Micro Controller Board	1 Unit Main
Solenoid Valve	24 V DC, 3 Nos
Body Material & FP	ABS, Food Grade, Pearl Green
Dimension	L410 X W385 X H465
Gross Weight	8.800 Kg
Net Weight	7.300 Kg

Benefits :

- Provides consistent pure quality of drinking water using ultrafiltration technology.
- Essential minerals like Calcium, Magnesium, Sodium, and Potassium are retained in the water.
- Zero wastage of water
- Unique on-line design & controlled contact time alkaline enhancer bio-ceramic cartridge which increases the Ph of water making the water Alkaline.
- Retains the anti-oxidant power of alkaline water which enhances the hydrogen level & reduces the ORP value in water without storing the water & delivering it on-line & live.
- Dual dispensing digital tap which allows the consumer to drink either pure water or on-line live alkaline pure water
- Improves the taste of water.
- Low Cost of Maintenance and Consumables.
