

CM

A SMALL PUMP WITH GIGANTIC POTENTIAL

It was once said that great things come in small packages. When you meet the Grundfos CM pump for the first time, you'll certainly agree. This horizontal multi-stage pump has been created with compactness and modularity as two of its central features. Adding reliability and quiet operation to the mix, another innovative pump solution from Grundfos is born.

Centrifugal Modular, the pump is basically composed of a series of interchangeable modules, all of which have been designed to work together seamlessly, whatever the application is.

APPLICATIONS

- Water treatment
- Water Transfer
- Water circulation (liquid temp 20 °C - 120 °C)

FEATURES

- Compactness
- Reliability
- Flexibility
